13.1 Precambrian Time: Vast and Puzzling

Precambrian History

- ◆ The Precambrian encompasses immense geological time, from Earth's distant beginnings 4.56 billion years ago until the start of the Cambrian period, over 4 billion years later.
- ◆ Precambrian Rocks
 - **Shields** are large, relatively flat expanses of ancient metamorphic rock within the stable continental interior.
 - Much of what we know about Precambrian rocks comes from ores mined from shields.

46 Clean How We Can Make More Space We can make more space, and in fact that's exactly what we are talking about when we talk about a "space revolution." But we often do not realize the true benefits of space when we go into it and think that the solution will be to fill our homes and offices with nothing but junk. There are many strategies to make our homes space friendly but I'm here to explain to you in this episode how space is a tool so that we can work with our homes and offices more efficiently and less easily, create more space for our families and friends, and be less stressed about the space we use. By following these 3 principles we create a more "space"-friendly home for the family and also for you. Do you have space for children? Do you want to create a quieter home than your family uses? The simple answer is no, of course not, but it makes more sense to create a space that gives them a quiet home to call home, and the answer to that is more and simpler-page PDF..
